

Our pipe organ enables music ministry through talented choirs, spiritual enrichment, and enthusiastic voices throughout the congregation. A pipe organ was only hoped-for during construction of our current sanctuary.

### 1979 – Loft Constructed with New Sanctuary & Narthex

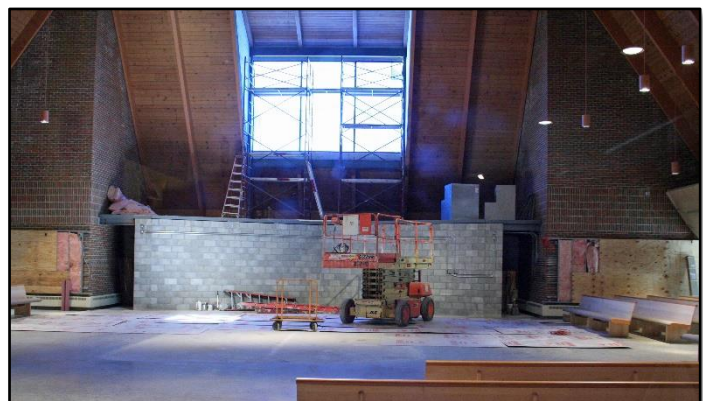

### 2003 – Pipe Organ Search Begins

Led by Don Hays and Paul Berry, the Reuter Organ Company as a good match, both acoustically and financially.

### 2007 – UPC 50th Anniversary

Sanctuary reconstruction included a loft update, with input from the Reuter Organ Company, adapting space, access, utilities.

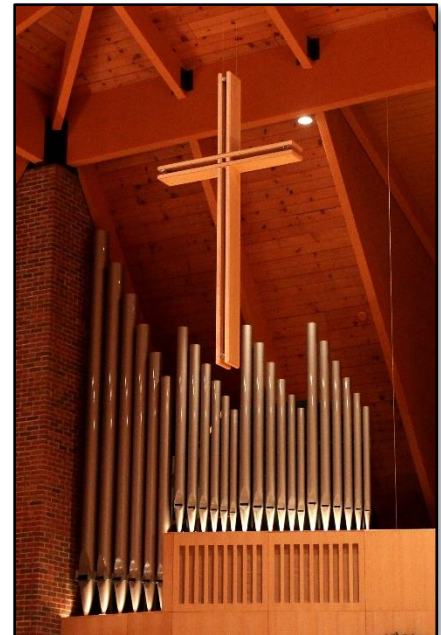

## September 2010 – Reuters Opus 2232 for UPC

Incorporating components from an instrument built in 1977 for the Second Presbyterian Church in Freeport, Illinois, later called United Presbyterian Church (also known as UPC).

- Vintage pipework was re-scaled and re-voiced, Organ wind chests reused
- Significant new pipework was tailored to fit the space at UPC
- A new two-manual console with fiber optic consold-to-loft connection

Organ specification included 28 stops (1,645 pipes)

GREAT	SWELL	PEDAL
16' Rohrflute (Swell)	16' Rohrflute	32' Resultant

### 2010-2011 – Dedication of Pipe Organ

The dedication service was played by Tom Trenney in the October 2010, followed by organ recitals by Carol Portice, Kaitlyn (Davis) Davros, and Sarah Simko.

### 2012 – Zimbelstern added

Meaning “cymbal star,” an organ stop with a rotating star wheel producing a continuous bell tinkling sound

### December 2021 – Complete Planned Pipe Organ

The last of the originally planned organ components, with on-site voicing of new pipes and tuning.
